

THOROUGH EXAMINATIONS CARRIED OUT BY PERMATT FORK LIFT TRUCKS

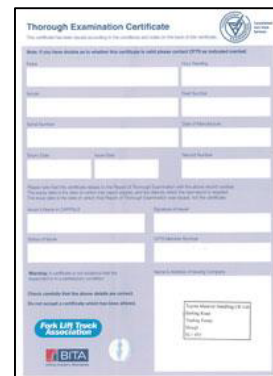

Thorough Examination certificates cover two separate legal acts; LOLER 98 & PUWER98. These two acts; the Lifting Operations and Lifting Equipment Regulations of 1998 and the Provision and Use of Work Equipment Regulations of 1998 both deal with all safety-related items in the workplace; such as lifting equipment, steering, tyres and brakes.

If you are fully insured; you may not require Thorough Examinations; however, if you are unsure, please do not hesitate to contact us to confirm this.

A Thorough Examination is an M.O.T. for your Fork Lift Truck. These safety examinations must be carried out every 12 months, just like an M.O.T. However, in some cases, the Fork Lift may require more regular assessments if they are used on a very regular basis.

Here at Permatt, our engineers will be able to assess your Fork lift Truck in all aspects of safety and offer guidance on looking after all material handling equipment on site. The assessments should only take 2 hours with competitive prices offered to all customers

Please do not hesitate to contact us on the details below for more information and to book your Thorough Examination today
